Incident Register

Online recording of incidents (events) that may have affected employees and to record causes and take remedial action.

Online OHS induction training for Employees and contractors

Manages all your OHS documentation online, ensuring the information is accessible to personnel within the workplace. Includes manuals, Standards and other reference

Taking control of your OH&S responsibility has never been easier

Hazard Register

Hazard Register is based on a simple proven approach to risk reduction, supporting AS/NZS 4360 and other international standards such as ISO 31000.

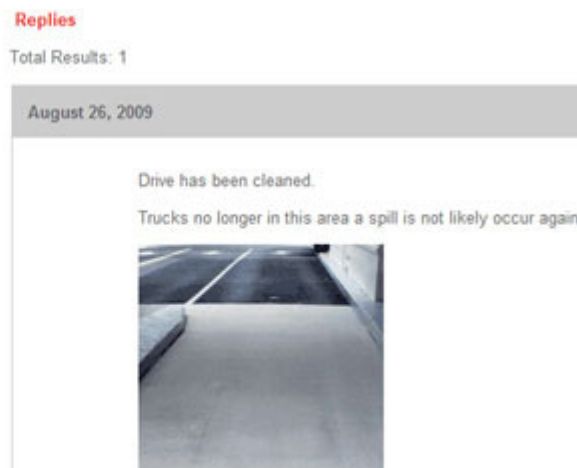

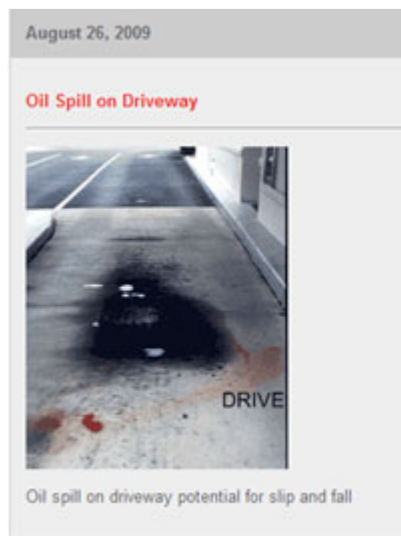

Designed for proactive hazard assessments and for documenting existing controls and new treatments (actions) to manage the likelihood or the consequence of an event.

Unique interactive Software

- Provides a collaborative, interactive approach to hazard management, servicing multiple locations and personnel. Improves Risk Culture
- Assists in embedding the process of Hazard Risk Management into an organisation's culture through a collaborative team approach
- System is live to ensure that most recent information or report is immediately available for all to see and collaborate on
- Ensures hazards and incidents are reported and acted upon, including notifications required by law

Hazards with Replies indicate that the collaboration process is underway
